CANADA'S SCHOOL OF VFX

Turn Creativity Into a Career in Film

Short, intensive courses in visual effects

Film is built by teams of specialists, and visual effects artists are a big part of how stories come to life on screen.

At Campus VFX, we focus on one thing: training artists for careers in visual effects. VFX combines creativity with technical skill to create everything from subtle enhancements to fully imagined worlds.

This summer, step into the process and experience what it's like to create visual effects using the same tools used in the industry: Houdini and Nuke.

Intro to Houdini FX Week 1

Particles FX & Rendering Week 2

July 20 to 31 **\$745 CAD**
